

Harnessing Collective Awareness: Bringing Digital Innovation to Sustainable Agricultural and Food Systems

A Milan Food Week event

Acquario Civico (Milano)

Tuesday, 8th May 2018

Agenda

Pre-workshop event:

Monday, 7th May

- 15.00-19.00** Visit to an agroecological farm in the surroundings (*place to be communicated*) and demonstration of the SOILHealth app developed in the CAPSELLA project
https://play.google.com/store/apps/details?id=eu.capsella.soilhealth.spade_test
- 20.00** Social dinner (*place to be communicated*)

Time	A new paradigm for truly sustainable agriculture and quality food systems
9:15-9:30	Welcome address - Milano Food Council Investments, achievements and future plans towards quality food systems
9:30-10:00 (Keynote speech)	Joint Research Center of European Commission, Ispra (Italy) Fostering agroecology and agrobiodiversity: the engagement of the European Commission
10:00-10.15 (Keynote speech)	Italian Agroecology Observatory – OPERA, Prof. Stefano Bocchi A new paradigm for sustainable farming: the role of agro-biodiversity management
10:15-10:30 (Keynote speech)	Agriculture digitization: Open data supporting Agriculture, Dr. Christopher Brewster (TNO, The Netherlands) Developing ICT tools for sustainable farming and food systems through social digital innovation
10.30-11:00	Innovation experiences- Insight in the CAPSELLA initiative & its main outcomes and results Prof. Yannis Ioannidis (Athena Research Centre, Greece) & Prof. Paolo Bàrberi (Scuola Superiore Sant’Anna, Pisa, Italy) Major outcomes of the CAPSELLA project
11:00- 11.20	Coffee Break
Time	Fostering links between actors in agro-biodiversity and the digital world
11:30-13:00	Panel debate: Question 1: Which specific digitization needs for Agroecological innovation? Question 2: The open data policy: opportunities and limitation for data management in sustainable agriculture/agroecology

	<p>Moderator: Dr. Vasileios Gkidakis (Agroecologiki, Greece) Chair: Tommaso Gaifami (OPERA and Agroecology Europe)</p> <p>Panelists:</p> <p>Researchers in agroecology</p> <ol style="list-style-type: none"> 1. Dr. Ambrogio Costanzo (Organic Research Center United Kingdom) 2. Dr. Rodolphe Vidal or Frederic Rey (ITAB, France) 3. Dr. Paola Migliorini (UNISG Pollenzo, Italy; President of Agroecology Europe) 4. Foreign Expert – invited by OPERA <p>Farmers representatives</p> <ol style="list-style-type: none"> 1. A representative of the Dutch Union (ZLTO, The Netherlands) 2. Riccardo Bocci (DIVERSIFOOD project, EU) 3. Luca Conte (Esapoda, Italy) 4. Christina Vakali (Aegilops, Greece) <p>ICT specialists</p> <ol style="list-style-type: none"> 1. Christopher Brewster (TNO, The Netherlands) 2. Office Innesto (Italy) 3. Diego Guidotti (AEDIT s.r.l., Italy) 4. Avanzi s.r.l. (Italy) <p>Policy makers</p> <ol style="list-style-type: none"> 1. Comune di Milano, Assessorato Tajani 2. Director of the Scientific Research Department of Fondazione Cariplo, Italy 3. Rete Rurale Nazionale
13:00-14:00	Lunch
Time	What type of ICT solutions to support agro-biodiversity use and management? Discussion on requirements and needs
14:00-16:30	<p>Parallel round tables - How to improve data management for different users with ICT tools?</p> <ol style="list-style-type: none"> (1) Farmers/advisors (agronomic practices, soil health management, varietal choice etc.) [RSR, SSSA, ZLTO, Agroknow] (2) Citizens (linkages to the supply chain, transparency, quality, consumers satisfaction) [WE DELIVER TASTE, Agroknow] (3) Entrepreneurs (start-up companies, logistic of food distribution in urban areas, nutrition and health data etc.) CORALLIA, Comune di Milano, Incubation process Winner
14:00-16:30	<p>Demo stands - Demo of CAPSELLA tools <i>Soil Health Spade test – AEGILOPS</i> <i>Data Management – DIVERSIFOOD & CERERE projects partners</i> <i>Food demonstrator – WE DELIVER TASTE</i></p>
16.30-17.00	Synthesis of panel round table discussions & Conclusions – chaired by Dr. Tommaso Gaifami (OPERA and Agroecology Europe)
17:00	End of the Workshop
